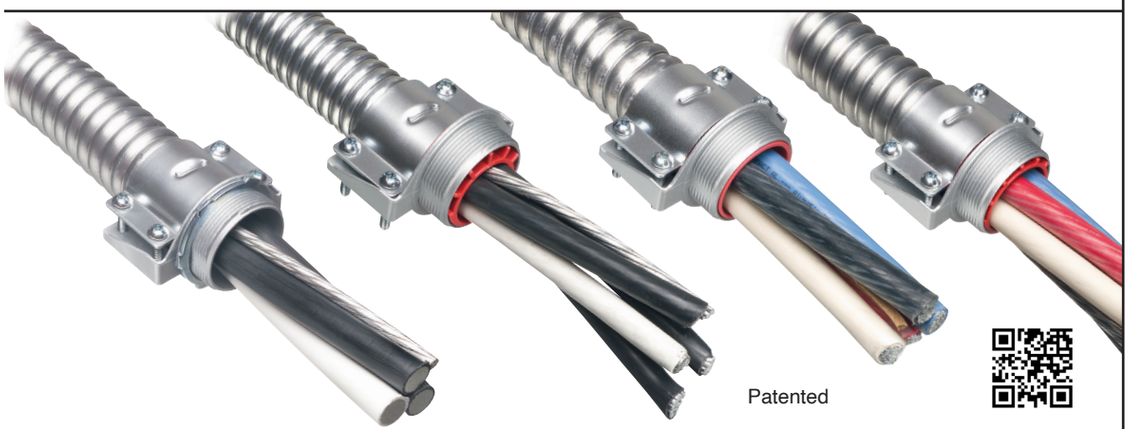
Versatile Zinc Feeder Cable & Conduit Fittings

NEW! More on reverse

One Fitting, Multiple Cable & Conduit Types, Sizes • Dry locations only

Reduce SKUs!

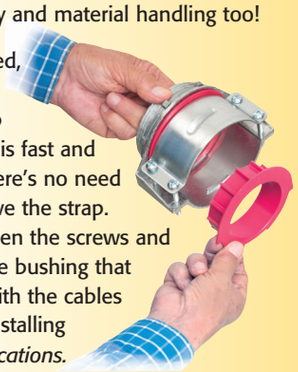
- *Fittings handle multiple cable and conduit types*
- *End stop bushings handle different size cable bundles*



Patented

Arlington's **MC cable fittings are now Listed for use with Tray Cable** and **Steel** and **Aluminum Flexible Metal Conduit** – *in addition to Type MC, PVC-jacketed MC and Teck cable.*

Available in a variety of sizes, each fitting has a built-in end stop – and also comes with additional end stop bushings that accommodate different size cable bundles. ONE trade size fits several cable sizes, making it super-convenient and cost-effective. Reduces inventory and material handling too!



If required, using an end stop bushing is fast and easy. There's no need to remove the strap. Just loosen the screws and insert the bushing that works with the cables you're installing *in dry locations.*

FREE TEMPLATE
for selecting bushing size.

- cULus Listed for PVC-jacketed MC cable, Teck cable, Tray cable and aluminum and steel FMC when terminating in a dry location
- Great for Data Centers!

Concrete tight when taped

1 Listed for MC, PVC-MC, Teck, TC cables

2 Listed for Steel & Aluminum Flexible Metal Conduits - for each specific FMC Trade Size, use the End Stop shown

It is recommended that the cable outer diameter be measured to ensure proper cable-to-fitting installation

NOW LISTED for TRAY CABLE & FLEXIBLE METAL CONDUIT!

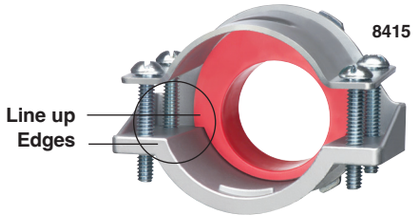
Easy to Install

1 Loosen screws to lift strap.

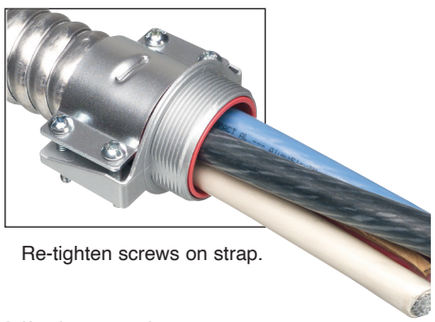
There's NO NEED TO REMOVE THE STRAP.

2 Use supplied template to determine bushing size. Insert end stop bushing, if necessary.

Locate and line up the edges of **Half Moon** shape on the bushing with the fitting. Insert the bushing.



3 Slip connector onto cable or Flexible Metal Conduit.



Re-tighten screws on strap.

4 If using an end stop bushing, size the bushing to the cable bundle

Incorrect size shown below.
The metal jacket should never go through the end stop.
