Description	SNAP IN CONN FOR MC CABLE
Long Description	Zinc die-cast, 1/2" Knockout MC cable connector snaps quickly on to the conduit with an internal spring steel clip and then secures into knockout with locknut. Concrete tight when taped. Provided with insulated throat.
Product Type	SNAP2IT Ins. W/LCKNT
Special Features	Insulated Throat
Extra Long Description	ARL 38A SNAP2IT INS. W/LCKNT

Manufacturer Information

Brand	ARLINGTON
GTIN	00018997000385
UPC	801230

Taxonomies, Classifications, and Categories

Category Description	FORM 5 CONDULETS, COVERS, & GASKETS
Type	Snap-on

Trade Size

Trade Size	3/8

Packaging

Carton	50
Package	500
Weight Per Each	0.0600 (lbs/each)

2310 N. Stallings Dr.
Nacogdoches, TX 75964-0
Phone: 9365697941
Fax: 9365604685

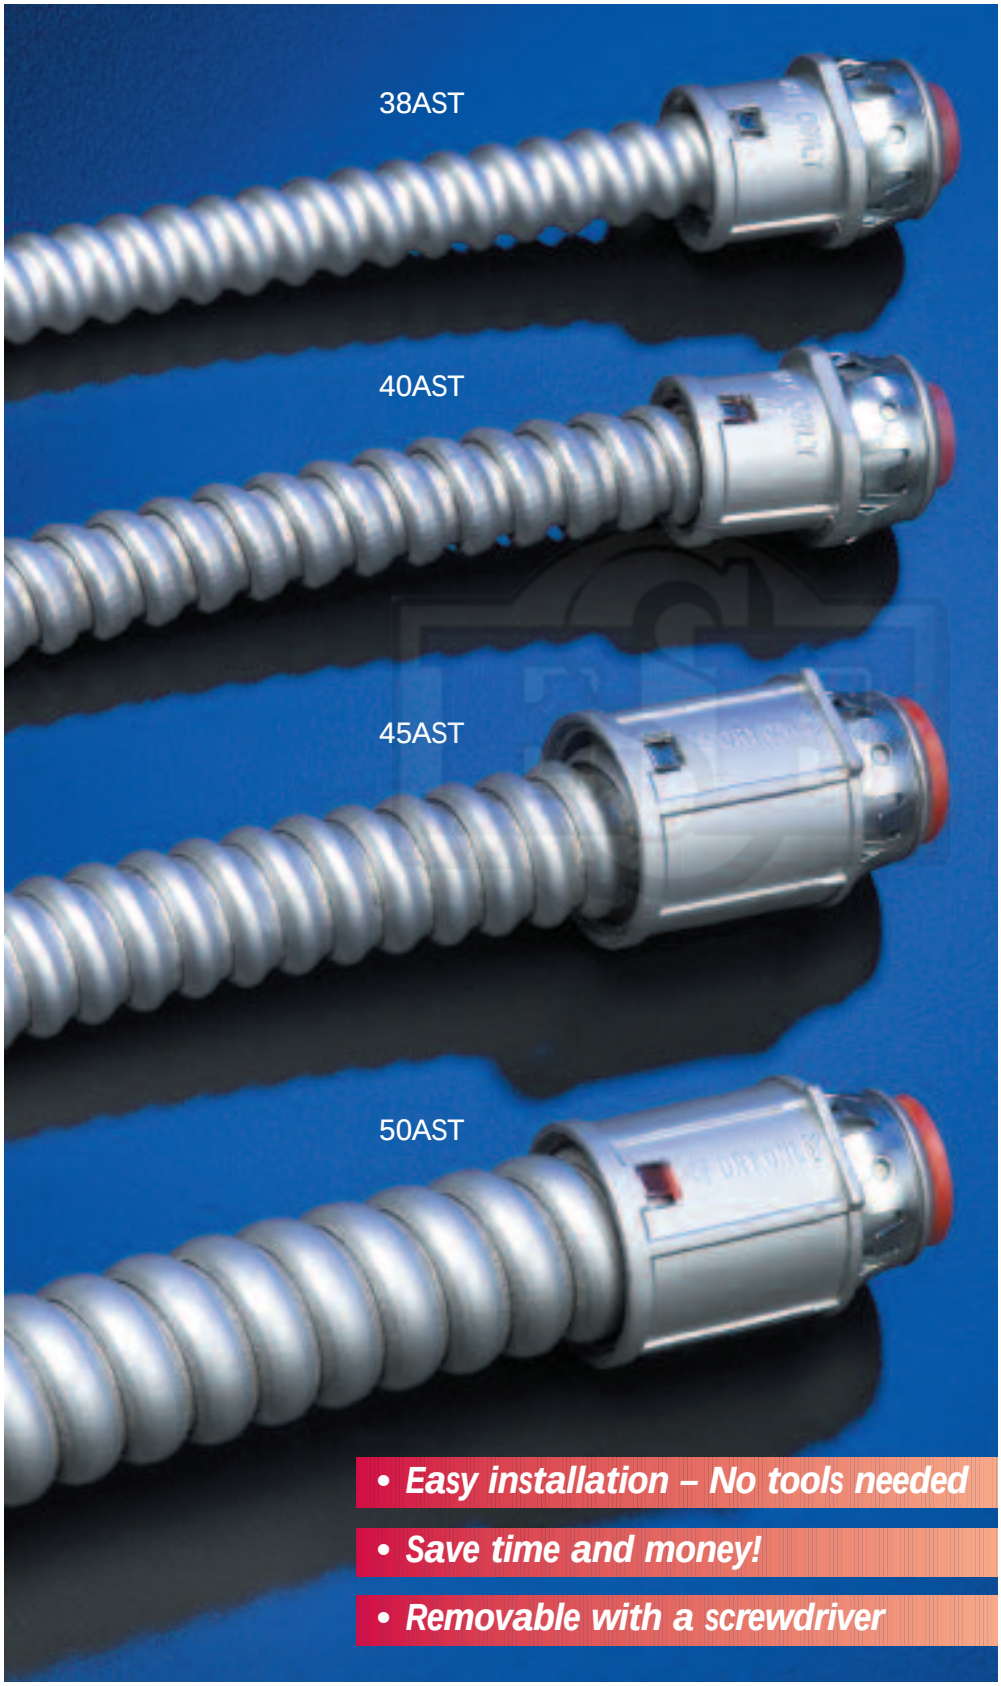
Uses, Certifications, and Standards

Application	AC/MC/HCF/MCI-A/AC90/ACG90/Flex/MC-PCS
Enclosure	Zinc
Standard	cULus

Connectors with the Widest Cable Ranges

for Flex • AC • MC • HCF Cable

More on reverse



Arlington's ***SNAP^{2}IT®*** *connectors are designed for safe and fast installations of flex, MC, AC, and HCF cable – and cover the widest cable ranges in the industry.*

They save time too – about 17 seconds per fitting. Just snap the fitting onto the cable, then into the electrical box. No tools are required for the installation.

For easier insertion of larger cables or for overlapping cable ranges, use the larger 40AST or 50AST fittings.

- *Easy to remove with a screwdriver – Just lift the ring and twist off*
- *Competitively priced*
- *UL/CSA Listed*

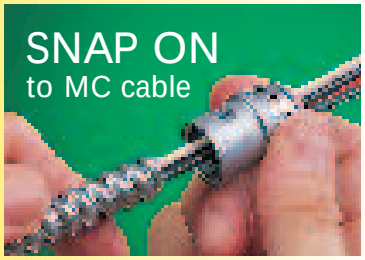
SNAP2IT® Connectors

with the Widest Cable Ranges in the Industry

SNAP2IT® connectors are fast and easy to Install!

There's no locknut to lose. Push cable into the fitting up to the end stop. Rotate cable clockwise until tight. Remove cable from the fitting by turning it counter-clockwise.



Easy to remove.

Just lift the ring with a screwdriver and twist off.
