GANGABLE FLOOR BOX

FOR NEW CONCRETE

WITH PLASTIC & METAL COVER KITS

ASSEMBLE THE BOX YOU NEED – FAST!

INTERLOCKING • UL LISTED • FOR COMMERCIAL USE

UL LISTED

GANGABLE FLOOR BOX

ECONOMICAL • CONVENIENT RECEPTACLE INSTALLATION

Arlington manufactures a complete line of floor box kits, boxes, covers and accessories for new concrete – and other applications.

Our UL Listed **GANGABLE FLOOR BOXES** and the **COVER KITS** featured here are designed for commercial installations. Available with 1-1/4" or 2" conduit hubs, these gangable boxes give installers an economical, convenient way to add receptacles in **new concrete** pours.

You can use the interlocking single gang box as shipped, or join them together to build the two- or three-gang box you need. You decide. Then buy the economical brass or nickel-plated zinc, or plastic cover/frame kit to fit. *Our cover kits, except those with furniture feed inserts, include a 20A receptacle and low voltage insert.*

The gasketed frame mounts to the box. Then the cover mounts to the frame, protecting devices against water intrusion when not in use.

Gangable boxes have openings for OPTIONAL 1/4"-20 screws that position, level and raise the box so concrete flows beneath.

NEW COVER KITS
*Two Flip Lids, pgs 6-8...
Furniture Feed inserts w 1" threaded opening...pg 9*

FOR NEW CONCRETE

INTERLOCKING • EASY ASSEMBLY OF MULTIPLE-GANG BOXES

GANGABLE FLOOR BOX KIT

CATALOG NUMBER	UPC/DCI/NAED MFG. #018997	DESCRIPTION/ CONDUIT HUB SIZE	COLOR/ MATERIAL	UNIT PKG	STD PKG
FLBC8500	22950	Single gang Gangable Box kit with (2) built-in 1-1/4" hubs	Non-metallic, Gray	1	5
FLBC8502	22949	Single gang Gangable Box kit with (2) built-in 2" hubs	Non-metallic, Gray	1	5

FLBC8500 includes concrete box/mud cover, (2) 3/4" conduit bushings and (2) blank plugs* that fit the 1-1/4" hubs (*w/ knockout for 1" conduit).

FLBC8502 includes concrete box/mud cover and (2) blank plugs* for the 2" hubs (*w/ knockout for 1-1/2" conduit). Also included are (2) conduit bushings ready for use with 1-1/4" conduit. These bushings accommodate the (2) supplied 3/4" conduit bushings.

Both boxes include the hubs and plugs you'll need to complete most installations.

FLBC8500 and FLBC8502
Patented • Made in USA

HERE'S HOW IT WORKS

After building desired box, attach frame (screws provided)

Install devices (screws provided)

Insert gaskets in (both) gangs. Add the covers

- 1 Lock two single-gang boxes together for a two-gang box.**
- 2 Need a three-gang box instead? Add another box!**
