## Connectivity Points

In today's homes, service connection points are nearly as important as media distribution itself. Finish off service connection points with wallplates that give you the flexibility and style you need. Decorator inserts upgrade connection points to a designer look, come in a variety of configurations and are compatible with any decorator wallplate.

**COOPER** Wiring Devices

1. Patented color code system ensures termination of wiring is done correctly – screw terminals and wiring loops are color assigned to allow installer to match with typical 4-pair cable or older telephone cable

2. Offered in standard size and mid-size versions to match existing or new wiring devices

3. Molded housing provides stability during installation and offers a simple installation practice with one-piece construction and no loose parts

4. Available in the 3 popular service combinations: voice, video, & voice/video to meet the most common applications throughout a home

5. Decorator strap versions offered to provide a seamless breadth of line and to compliment and decorator installation

## Specific Connectivity Point Solutions for Today's Needs

### Quick & Simple Installation

One-piece design and construction reduces time on the job, plus there are fewer parts to keep track of and less waste. Available in many common service point configurations.

See page: D-13
