Fish Tapes

Features:

13" case diameter allows you to reel in 15% more tape in a single revolution than similar sized 12" tapes saving you time and effort.

Raised fingerrips help transfer 100% of the winding power from your hand and fingers.

The unique sloped handle optimizes the position of your hand for quick hand-over-hand rewinds and allows a more level payout of tape on the backswing while feeding conduit.

Polypropylene case and handle are extremely durable and offer the maximum in shock and impact resistance.

Round inner ring design provides a smooth, consistent and comfortable surface for winding and rewinding.

- Full grip style handle gives you a firm, steady grip as you pull tape from the case (Cat. Nos. 56000, 56001).
- The 13" case diameter means you can reel in 15% more tape in a single revolution than similar sized 12" tapes saving you time and effort (Cat. Nos. 56003, 56004).
