Features	Eaton's residential CH circuit breakers provide premium overloa
	protection. The Type CH circuit breakers trip to the OFF position
	eliminating nuisance callbacks. The CHF family also includes a tri
	flag to differentiate between a trip and the breaker being turned
	off. The thermal-magnetic trip curve avoids nuisance tripping on
	mild overloads while reacting almost instantaneously to severe
	short-circuit conditions. Multiple breakers have an internal
	common trip connection to operate all poles simultaneous
