

# ELLIOTT ELECTRIC SUPPLY

We Deliver...Lower Cost, Quality Products, & Personal Service

2310 N. Stallings Dr. 75964-0000, TX Nacogdoches Phone: 936-569-7941 Fax: 936-560-4685

### LMRC111 On/Off/0-10V Dimming Room Controller Wattstopper

| Catalog Number              | LMRC111   |
|-----------------------------|---|
| Manufacturer                | Wattstopper   |
| Description                 | <p>LMRC-110 Series Room Controllers Include One or Two</p>  |
|                             | Relay(S) to Switch A Total Of 10 Amps, A High-Efficiency  |
|                             | Switching Power Supply and Dual 0-10 Volt Outputs Per Relay For   |
|                             | Control Of Dimmable Loads Including Compatible Led Drivers or   |
|                             | Electronic Ballasts. They Are The Foundation Of A Digital Lighting  |
|                             | Management (DLM) System, and Allow Integration Of Occupancy Sensors, Daylighting Controls and Switches For Energy-Efficient |
|                             | Control.  |
| Weight per unit             | 0.8000 (lbs/each)   |
| Product Category            | Lighting Controls   |
| Features                    |   |
| Connector Type              | RJ45, Terminal Block  |
| indoor/outdoor              | Indoor  |
| Input Voltage               | 120/277 VAC   |
| Material                    | Polycarbonate   |
| Mounting Type               | •   |
| Number of Connections       | 4.0   |
| Output Voltage              | 24 VDC  |
| Material, Color, and Finish |   |
| Color                       | White   |
| Descriptions                |   |
| Description                 | ON/OFF/0-10V DIMMING ROOM CONTROLLER  |
| extra long description      | WATT LMRC-111 DLM Room Controller,  |
| Long Description            | LMRC-110 series room controllers include one or two relay(s)  |
|                             | to switch a total of 10 amps, a high-efficiency switching power   |
|                             | supply and dual 0-10 volt outputs per relay for control of  |
|                             | dimmable loads including compatible LED drivers or electronic   |
|                             | ballasts. They are the foundation of a Digital Lighting   |
|                             | Management (DLM) system, and allow integration of occupancy   |
|                             | sensors, daylighting controls and switches for energy-efficient control.  |
| Product Type                | DLM Room Controller, 1 Relay, Ko, 0-10V, 10a  |
