SLD Surface LED Downlight Luminaire

SLD6

SLD4

WaveStream™ LED

Taking Control of Light.

Features

- 4" and 6" ultra-low profile surface mounting
- WaveStream™ LED Technology
 - Downlight cone-of-light performance
 - AccuAim™ optics for directional control
- 4" SLD4 and 6" SLD6 - 600 Series
 - Lumens: up to 800
 - Wattage: 12.2W (13.2W SLD6 90CRI)
 - Voltage: 120V, 50/60 Hz
- 6" SLD6 - 1200 Series
 - Lumens: up to 1215
 - Wattage: 14.8W
 - Voltage: 120V, 50/60 Hz
- 6" SLD6 - 1200 Series UNV
 - Lumens: up to 1215
 - Wattage: 14.8W
 - Voltage: 120V-277V, 50/60 Hz
- 2700K, 3000K, 3500K, and 4000K CCT
- 80 CRI and 90 CRI options
- Installs in many 3-1/2" and 4" ceiling junction boxes
- Retrofits 4", 5", or 6" recessed downlight housings
- Dimmable to 5% with many 120V leading-edge and trailing-edge phase control dimmers
- Universal voltage also dimmable to 10% with many 0-10V DC low voltage dimmers

Innovation you can rely on™

Halo **SLD Series** Surface LED Downlight luminaires incorporate WaveStream™ LED technology to create an ultra-low profile, surface-mounting luminaire with the performance and look of traditional downlights. The SLD Series 4" and 6" luminaires are designed for installation in many 3-1/2" and 4" electrical junction boxes, and may be retrofit in 4", 5", or 6" aperture IC and Non-IC recessed housings. A dedicated LED wiring connector meets high-efficacy code requirements when in recessed downlight housings and prevents substitution of lower efficacy sources. Perfect for residential or commercial installations and ideal for closets, storage areas, attics and basements. For closets, compliant with NFPA® 70, NEC® Section 410.16 (A)(3) and 410.16 (C)(5). The SLD Series offers unparalleled design freedom with mainstream value.

- cULus Listed for Halo housings
- UL Classified for other housings
- Damp Location Listed for walls
- Wet Location Listed for showers and outdoor protected ceilings
- Plug-in LED connector for easy installation
 - Supply wire adapter connection, for junction box wiring*
 - Screwbase adapter for recessed housing retrofit**

*supply wire adapter with LED connector

**screwbase adapter with LED connector

*LED connector on SLD meets CA Title 24

** Retrofit only - not for CA Title 24

Compliances

90 CRI

Can be used to comply with California Title 24 High Efficacy requirements. Certified to California Title 20 Appliance Efficiency Database.

80 CRI

Can be used to comply with California Title 24 Non-Residential Lighting Controls requirements as a LED Luminaire.

Refer to ENERGY STAR® Certified Products List.

SLD Designer Trim Rings

SLD trims provide the ultimate in design freedom to match décor and interior fittings in a space with an offering of satin nickel and tuscan bronze plated trims, plus a white trim that may be field painted prior to installation to an alternate color choice.

**White
(Paintable)**

Satin Nickel

**Tuscan
Bronze**

The versatile SLD trims are optional accessories that snap over the SLD. Note that use of the pre-installed thin film tape on the back side of the trim is required to secure the trim and prevent rotation when installing the SLD unit.

Junction Box Accessories

Spacer Extension Ring

The spacer extension ring adds 15/16" depth when the SLD driver cannot fit into a junction box due to excess wire fill or other obstruction. The spacer extension ring is also a problem solver for installations with shallow pancake boxes or plaster rings.

SLD4EXT

4" Surface LED Space Ring

| | A | B | C | D |
|---------|-------|--------|-------|-------|
| SLD4EXT | 7.75" | 0.925" | 3.88" | 6.25" |
| SLD6EXT | 9.5" | 0.925" | 3.88" | 8" |

SLD6EXT

6" Surface LED Spacer Ring

Standard J-box

Standard J-box with plaster ring

Shallow J-box (pancake)

Surface Box Adapter

The surface box adapter allows the user to install the SLD to a junction box that is mounted flat on a ceiling or beam surface (not recessed in the ceiling).

SLD4RAD

4" SLD Round Surface J-box Adapter

For 4" round and octagon junction boxes.

SLD6RAD

6" SLD Round Surface J-box Adapter

For 4" round, octagon, and square junction boxes.

(*use SLD6SADPLT for square J-box)

*SLD6SADPLT

6" SLD Square Surface J-box Adapter Plate (use with SLD6RAD)

Concrete

Fire-rated

Shallow plenum? 

No problem.

Halo SLD

Insulation - batting or spray foam

Framing

Junction box mounting applications are generalized for illustrative concept only. These are not for construction or specification. Refer to appropriate professional and code authority for specific box and installation requirements.

The perfect solution where there is no plenum space for a recessed downlight.

Junction Box Mounting Ceiling or Wall

SLD6 Junction Box Installation

SLD6 with junction box bracket installed.

Junction Box Mounting Summary

1. Install junction box bracket.
2. Unplug supply wire adapter from SLD. Connect black and white wires from the supply wire adapter to house wiring (black to black and white to white).
3. Locate the supply wire adapter behind the junction box bracket.
4. Plug matching orange LED connector from supply wire adapter to SLD.
5. Align two bracket tabs with slots on back of SLD fixture.
6. Turn clockwise to lock in place.

Note that this is only a summary. Read and follow the instructions included with the product for full details.

△ when used with SLD4RAD (SLD4) or SLD6RAD (SLD6)

*This is a representative list of compatible junction boxes only. Information contained in this literature about other manufacturers' products is from published information made available by the manufacturer and is deemed to be reliable, but has not been verified. Eaton makes no specific recommendation on product selection and there are no warranties of performance or compatibility implied. Installer must determine that site conditions are suitable to allow proper installation of the SLD mounting bracket in the box.

Note: SLD6-1200-UNV is compatible with 4"x4" square junction boxes. Compatibility with other junction boxes requires SLD6EXT. See spec sheet for details.

Recessed Housing Mounting

Retrofits 4", 5", or 6" recessed housings.

1. Install screwbase adapter to fixture socket. (LED housings skip Step 1)
2. Attach torsion springs or friction clips to SLD following the instructions included with the SLD.
3. Install SLD into recessed can.

Note that this is only a summary. Read the instructions included with the product for full details.

Notes:

1. The Rapid Start feature is used to ensure the right amount of power boost during start-up. When a dimmer with Rapid Start is turned on from a low dimmer setting, the LED lighting may exhibit a momentary flash. Designated dimmer models offer an adjustment of the Rapid Start feature. The user may wish to adjust this setting to reduce the boost and resulting momentary flash. If this capability is desired, the user should select dimmer models noted as "fully adjustable" or "selectable ON or OFF".
2. Not recommended to connect SLD6-1200 and SLD6-1200-UNV to the same dimmer. See dimming guide for details.

Product and Photometric Data

- Downlight cone-of-light distribution
- Maximum spacing criteria
- Optimized design for general downlighting
- Exceeds 83% of light between 0-60° cone-of-light zone
- ENERGY STAR® and California Title 24 - zonal and efficacy requirements
